**Councilmember Nancy Floreen's statement on
County Executive Duncan's proposed Purple Line compromise**

"If we are going to get serious about addressing our congestion problems, we need to think creatively. Duncan's proposal minimizes impact on existing communities while maximizing use of existing infrastructure. More important, this simple connection gives every single rider of the Red Line – from Shady Grove to Takoma Park to Glenmont - seamless and speedy accessibility to the burgeoning jobs and arts districts of Bethesda and Silver Spring. I will follow this with tremendous interest."
